# Coordinate Battleship

Draw the following ships randomly on the grid paper where the lines intersect.

Example below:

The ship below has the coordinates of (-4,4) (-3,4) and (-2,4). When player 1 asks if there is a ship at (-3,4) it is a hit, when they asked if it was at (1,1) it was a miss. Whoever sinks all the other players Battleships first wins!

Aircraft Carrier

5 Units

Battleships

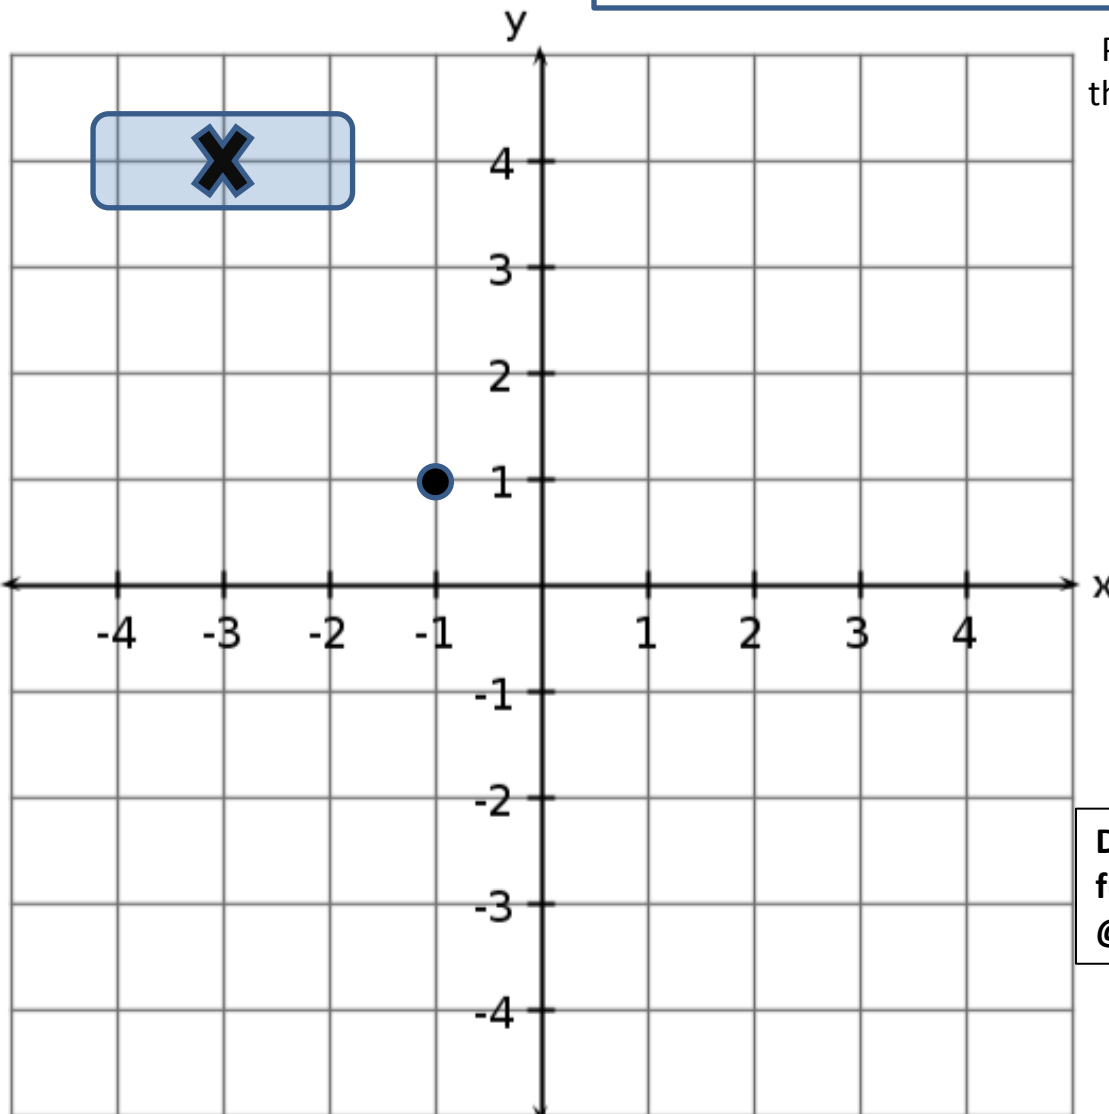

4 Units

Submarine

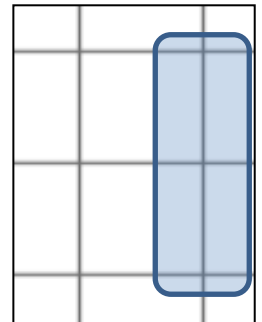

3 Units

Patrol Boat

2 Units

Place your ships on the intersecting lines

**X** = Hit

**●** = Miss
